SUMMARY

Senior Frontend Engineer with 6+ years of experience building scalable web and mobile applications using React, React Native, and TypeScript. Expertise in modular architecture, performance optimization, and REST API integration. Delivered 5+ production mobile apps and improved CI/CD efficiency and app performance in high-traffic environments. Seeking to leverage frontend engineering expertise to drive scalable, high-performance product development.

EXPERIENCE

iOL World

Gurugram, India

Senior Frontend Engineer

Sep 2025 - Present

- Led the frontend development of a scalable web application, enhancing performance and modularity using React and TypeScript.
- Collaborated with backend teams to integrate seamless user experiences, improving application responsiveness and reliability.
- Optimized frontend performance, reducing load times by implementing efficient component systems and architecture.
- Championed the use of Next.js and TanStack, resulting in improved application scalability and maintainability.

WhyMinds Global

Ghaziabad, India

Senior Frontend Developer

Sep 2024 - Aug 2025

- Led the redesign of frontend architecture, improving UI responsiveness and stability over 11 months.
- Implemented modular component systems with React and TypeScript, reducing component duplication and enhancing maintainability.
- Introduced Redux-based state management, optimizing API integration and improving application performance.
- Enhanced CI/CD workflows, resulting in faster builds and deployments, supporting rapid feature releases.
- Collaborated cross-functionally to deliver scalable UI features, ensuring seamless performance across devices.

CLOUDSUFI

Noida, India

Sr. React Native Developer

Nov 2023 - Jul 2024

- Led the development of a mobile application for real-time energy monitoring, improving data visibility and operational insights over a 9-month period.
- Integrated multiple REST APIs to fetch and display large volumes of real-time energy data, maintaining smooth UI performance.
- Implemented advanced data visualization techniques using React Native Charts, simplifying complex energy metrics for end users.
- Optimized data handling processes to ensure seamless rendering of analytics dashboards on both Android and iOS devices.
- Managed deployment pipelines for Play Store and App Store, ensuring stable application performance and user accessibility.

Okoders

Sr. React Native Developer

May 2020 - Sep 2023

- Led the development of Ambrosia's e-commerce app, integrating Stripe for secure payments, enhancing user satisfaction and boosting sales.
- Implemented advanced shopping cart functionality and authentication systems in Ambrosia, optimizing checkout flows and improving transaction security.
- Integrated chat functionality and Google Maps API in Edyou, enhancing communication features and increasing user engagement.
- Automated testing processes using jest-cucumber, improving code reliability and reducing deployment times across multiple projects.
- Enhanced UI performance and responsiveness across 5+ apps, ensuring seamless user experiences and maintaining high customer retention rates.

Apcomplinfotech

Delhi, India

React Native Developer

Jun 2019 - Feb 2020

- Developed and optimized mobile applications using React Native, improving API response times by 30% to enhance user experience.
- Collaborated with cross-functional teams to implement efficient frontend solutions, ensuring seamless integration with backend services.
- Utilized TypeScript and Redux to streamline state management, resulting in more maintainable and scalable codebases.
- Contributed to the reduction of application load times, enhancing performance and user satisfaction.
- Applied advanced JavaScript techniques to solve complex frontend challenges, improving application reliability and functionality.

EDUCATION

Bachelor's Degree in Computer Science and Engineering • GPA: 68

Jan 2015 - Dec 2019

Krishna Engineering College

ghaziabad, India

SKILLS

Frontend Development: React.js, React Native, JavaScript, TypeScript, Redux

Mobile Application Development: React Native, React Native Charts, REST API Integration, Play Store Deployment, App Store Deployment

State Management: Redux, Zustand, MobX

UI/UX Optimization: Modular UI Systems, Component Reusability, Advanced JavaScript Techniques, UI Performance Enhancement, Responsive Design

Project Leadership and Collaboration: Cross-functional Team Collaboration, Frontend Architecture Redesign, CI/CD Workflow Enhancement, API Integration Optimization, Feature Release Management

PROJECTS

OTT Platform Frontend Architecture | WhyMinds Global

Redesigned and scaled frontend architecture for a high-traffic OTT platform to improve performance, responsiveness, and cross-platform user experience.

Technologies: React.js, React Native, TypeScript, Next.js, Redux, HTML5, CSS3, REST APIs, CI/CD

Achievements:

- Improved UI performance and stability, reduced component duplication via reusable design systems, and accelerated feature release cycles in a high-traffic environment.

Ambrosia E-Commerce Mobile Application | Okoders

Developed a scalable mobile e-commerce application with secure authentication, product browsing, and seamless checkout experience.

Technologies: React Native, TypeScript, JavaScript, Stripe API, REST APIs

Achievements:

- Successfully launched a secure payment-enabled app, improving checkout reliability and enhancing overall user engagement.

Energy Monitoring Mobile Application | CloudSufi

Built a real-time energy monitoring mobile application with interactive dashboards for tracking consumption and operational insights.

Technologies: React Native, TypeScript, JavaScript, REST APIs, React Native Charts

Achievements:

- Delivered a production-ready analytics app with real-time data visualization, improving decision-making and operational visibility.

CERTIFICATIONS

React Native

2023-01

Cutshort

AWARDS

Community Volunteer – Magic Bus India Foundation

2014

Volunteered as a community mentor helping underprivileged children learn life skills through sports and activity-based learning programs.
